

TEST AND PROTECT

Hamilton County CARES COVID-19 Testing

When/How will I get my results?

- Test results from the **lab are expected within 2-3 days.**
- Someone from our team will call you **only if your test result is positive.** You will receive an email from **covidtesting@uc.edu** if your test result is negative.
- Access your **test results online via KnowNow:** <https://webapps2.uc.edu/know/>
 - The KnowNow code only works once your results are available.
 - If you have issues accessing KnowNow, please call **513-558-8898.**

After today:

If you have had suspected or **known exposure or ongoing COVID-19 symptoms** (e.g. cough, fever, loss of taste or smell), stay home, monitor your health, and talk to your doctor or health care provider.

If you have **no symptoms and no known exposure to someone with COVID-19**, there is no need to isolate until your test comes back.

However, you should continue safe practices: **wear a mask, wash your hands often and social distance.**

Consult the next page for what to do after your results.

Test and Protect aims to stop the spread of COVID-19 through rapid, efficient and convenient testing in neighborhoods and organizations throughout Hamilton County. Funding is provided by Hamilton County CARES Act.

On-site testing provided by:

TEST AND PROTECT

Hamilton County CARES COVID-19 Testing

Your COVID-19 Test Results

If your test is

NEGATIVE EXPOSED

Stay home and away from others for 14 days after exposure

NEGATIVE NOT EXPOSED

NO SYMPTOMS

You do **not** need to self isolate

SYMPTOMS

Stay home, avoid contacts with others for 72 hours AND at least 24 hours with no fever and without fever-reducing medication

Get retested if you develop new or worsening symptoms such as fever (100°F), cough, shortness of breath or other symptoms of COVID-19

If your test is

POSITIVE SYMPTOMS

Stay home and away from others for at least 10 days since symptoms first appeared AND at least 24 hours with no fever and without fever-reducing medication

POSITIVE NO SYMPTOMS

If you continue to have no symptoms, you can be with others after 10 days have passed since you were swabbed for a COVID-19 test

Please respond to the health department's outreach as your name and contact information will be shared with public health to help with contact tracing

If you develop new or worsening symptoms, contact your health care provider. There is no need to retest for 3 months (90 days) after testing positive

PROTECT YOURSELF AND OTHERS

Wash your hands often with soap and water for at least 20 seconds

Wear a face mask.

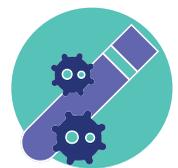

Continue practicing social distancing and avoid people who are at higher risk for getting severely sick from COVID-19.

Cover your coughs and sneezes.

Clean and disinfect frequently touched objects and surfaces (doorknobs, railings, phones, counters, faucet handles).

Retest:

No less than 48 hours after a negative test. 48-72 hours after exposure or symptoms. 3 months after a positive test.
