

## Frequently Asked Questions

### GENERAL

#### Why did we pick a goal of 80%?

This was considered an ambitious, but achievable goal. There were no concerns with supply and capacity as barriers to reach 80%. Demand was the greatest challenge – which reinforced the importance of setting a challenging, meaningful goal that would bring our region closer to herd immunity. We recognize that some counties could achieve higher levels than others, but we should work together to get our overall regional average as high as possible.

#### Can KY residents attend a vaccine site in Greater Cincinnati?

Residency is not checked in Ohio vaccine locations.

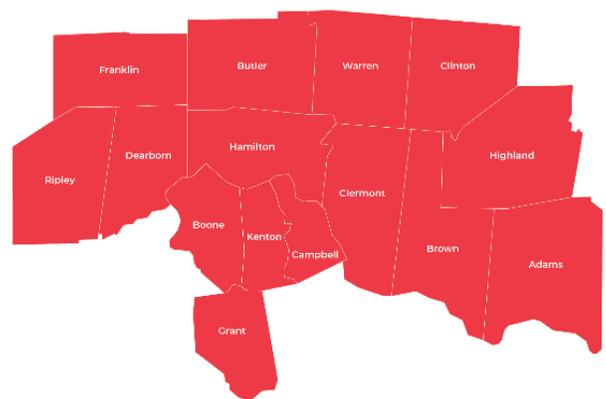

#### Can Greater Cincinnati residents attend a vaccine site in KY?

No. Only KY residents can be vaccinated in KY.

#### Which counties are included in this push for vaccinations?

Northern Kentucky, southwest Ohio, and southeast Indiana counties are included.

See the 15-county graphic below.

#### How do I get the discounted Reds tickets?

In April and May, Reds fans can purchase a \$10 ticket (valid on games Monday – Thursday) by showing their COVID-19 Vaccination Card with at least one shot completed. Discounted tickets can be purchased at the ticket windows at Great American Ball Park. Details here: <https://www.mlb.com/reds/tickets/specials/vaccine>

#### Why are buildings lighting up orange? What does this signify?

Orange signifies warmth, motivation and energy. Together, we are working to vaccinate our community and build a healthier region – the *THRIVING 20s!*

#### How can organizations participate in future *Get Out the Vax* weekends?

Health departments, partners and community organizations are welcome and encouraged to join at any time. These will occur every other week, and the greater the participation, the better. Information will be shared through PIOs and through Region 6 working groups. Feel free to reach out directly to Regina Carswell Russo at [regina@rrightnowcomm.com](mailto:regina@rrightnowcomm.com).
