

membership

The Health Collaborative (THC) recognizes that the needs of a large health system are different from those of a long-term care facility or a private practice.

That's why we make it easy for you to choose the membership level that is right for you.

Whether you want full participation in all THC events or you only wish to participate in our GPO, we have a membership level to fit your needs. We also offer a discount on our health information exchange, hb/suite, to all members above the GPO level.

for more information, contact:

Jackie Glaser
Senior Director, Client Services
(513) 878-2853
jglaser@healthcollab.org

supporting the delivery of high-quality care

Dues-paying members of The Health Collaborative work together on healthcare improvement projects, share best practices, and gain exclusive access to comprehensive data and other member services.

member benefits include:

Studies & Surveys

Supporting and encouraging improvement, and facilitating shared learning.

Disaster Preparedness & Emergency Planning

Ensuring that if a disaster strikes, we all have the resources and tools to respond.

Education & Training

Courses and sessions to help your organization improve quality, efficiency, and organizational effectiveness.

Group Purchasing Organization

Combined buying power of 30+ hospitals/health systems and 120+ post-acute/long-term care providers, while supporting Minority- & Women-Owned Businesses in our region.

Workforce Innovation

Using collective workforce data, we're predicting which healthcare jobs will be in high demand in the coming years. Cultivating the next generation of healthcare professionals through exciting TAP Health pipeline programs.
