

## Healthcare Career Exploration and Recruiting in One Signature Event Providing Maximum Value for Exhibitors and Job-seekers

HealthFORCE, our annual healthcare career expo, allows high school students from across the region to explore an entire range of healthcare careers in just a half-day.

Our 2023 event included 40 unique exhibitors and more than 800 high school students!

This high-energy half-day event is free to Cincinnati area high school students and is packed with information sessions, demonstrations, and activities for students to explore a wide range of in-demand healthcare professions.

## healthFORCE 2023

### HealthFORCE + Job Fair = Closing the Employment Gap Faster

Considering the high participation of healthcare employers, organizations, colleges, and universities at HealthFORCE, The Health Collaborative would like to leverage the attendance of these exhibitors to expand HealthFORCE to include a hiring expo. The hiring expo would be open to the public.

Job seekers would have the opportunity to learn about and talk to different employers, find out about open positions, and possibly even apply on the spot.

With the large amount of publicity HealthFORCE obtains, and with exhibitors already attending, adding a job fair on the same day as the expo is a dynamite option for exhibitors to reach more people interested in a healthcare career.

As one of the best attended healthcare events in Cincinnati, we anticipate the job fair will be the premier hiring event for people interested in careers in healthcare in the Cincinnati.
