

THE HEALTH COLLABORATIVE

Partner with Us to Build a Healthier Community.

Convening is at the center of everything we do. From one-time events to annual programs, collaboration amplifies our collective impact. With a network that spans regional healthcare systems, community leaders, and government officials we are able to drive measurable outcomes across our region.

If you are looking to support a high-impact initiative or connect with our robust regional network, we are currently accepting sponsors for our upcoming suite of programs and events.

Here are some of the key content areas we are working on this year:

- Healthcare Workforce Development
- Trauma & Emergency Preparedness
- Data & Analytics/Health IT

- Quality Improvement & Patient Safety
- Community Health & Health Equity
- Education Convenings & Thought Leadership

If your organization's priorities align with some of what you see here - let's talk. We are happy to customize a sponsorship program that works for you.
